MOE = +/- 2.9%
Probability selected online panel

US President

Donald Trump 52%
Kamala Harris 43%
Robert Kennedy Jr 6%

Contrary to earlier post-debate indications, Alaska is not in play.

The President vote in Alaska will be conducted using Ranked Choice Voting.

However, it may not come down to RCV. Where RFK's vote goes when he is eliminated is moot, because Trump is already over 50%.

Trump may even win on the first ballot, contested between 8 candidates.
